

Readme

All the files needed for this unit are in this folder. The first document you should look at is:

Fundamentals of programming Teaching Guide.docx

This tells you about the unit and includes the detailed lesson plans for each topic within Sections 3.1 to 3.3 of the new 7516 AQA AS syllabus.

You may wish to copy the files from the unit onto a shared network drive or VLE where students can access the presentations, worksheets, homeworks and links. Remember to remove any documents you would prefer them not to access such as the assessment and answer sheets.

You may also wish to upload the files for secure home access. This could be via an MLE such as Fronter, Frog, SharePoint or Moodle.

If you have any difficulty opening any of the files, which were all created in Office 2013, or experience any other problems, please email support@pgonline.co.uk.

This is the first in a series of 12 units for A Level Computer Science. We hope you will find it useful.

We would greatly appreciate your feedback once you have had a chance to use the material! Please send an email to support@pgonline.co.uk.
